

# **NORTH BRANFORD BOARD OF EDUCATION**

**SERIES 5000: ADMINISTRATION**

**P5120**

## **EVALUATION OF ADMINISTRATORS**

In order to advance the instructional program of the school district, the Superintendent of Schools will establish and will implement an evaluation program for all administrators. Such a program will be aimed at improving administrator performance and at promoting professional growth within the framework of the goals and objectives of the school district.

The evaluation of district administrators should be viewed as part of an overall district management plan to improve student outcomes by establishing goals and objectives, appropriate programs, and methods of evaluation. Instructional leadership efforts can only be productive if teaching and learning are emphasized and if objectives, measurement, and feedback are part of that effort. Teachers, administrators, central office personnel, and the Board of Education should be partners in the improvement process.

**Policy adopted: 4/24/08**
