

NORTH BRANFORD BOARD OF EDUCATION

SERIES 2000: PERSONNEL

P2030

SMOKING RESTRICTION

The Board of Education is concerned for its students and employees and endeavors to provide an environment that protects their health.

The Board recognizes that medical research confirms that smoking poses a significant risk to the health of non-smokers as well as to smokers, and that all adults should be models who teach children and youth by example; therefore, smoking by employees or visitors as well as students is prohibited at all times on school grounds, on school property, including buses, and at all school-sponsored activities.
