

North Branford Students and Seniors

## Greetings from the President of the Foundation

I feel privileged to serve on behalf of the students and community of North Branford as President of a volunteer organization dedicated to securing funds to enhance and extend learning opportunities for our students that are beyond the conventional resources of our school system. The Foundation is committed to obtaining supplemental resources and services that will make an already great school system one of the best in the state and the nation!

The North Branford Education Foundation is in its initial stages of developing plans and activities to acquire funds for projects and activities that will enhance education in North Branford. I ask you to join us as we begin this journey.

Thank you,  
Marie E. Diamond

## The North Branford Education Foundation is about...

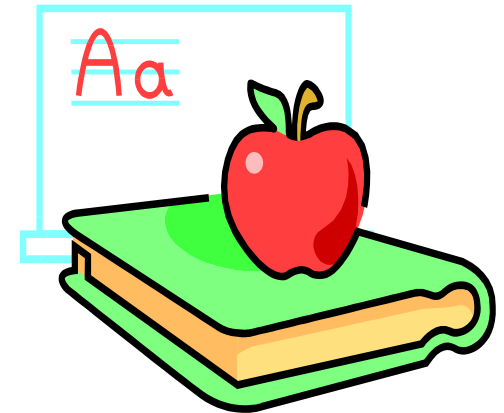

The goal of the North Branford Education Foundation is to raise funds from individuals, businesses, and civic groups in the community and from alumni nationwide to promote the excellence of North Branford Public Schools. The Foundation is independent of the Board of Education and is not designed to replace tax dollars nor to affect the school budgeting process.

The Foundation will distribute the funds raised to enhance educational initiatives and provide grants to district educators who apply to pilot a new activity, enhance a part of the existing curriculum, or strengthen the teaching-learning process in the classroom.

"Together we make a difference"
