

Our Curriculum

The goal of the Family Resource Center Preschool Program is to prepare all of our children for school success. It starts the first day they walk through our doors. We focus on the whole child, exposing them to a caring environment and learning activities that will allow them to develop emotionally, socially, physically and cognitively. Our teaching and learning activities are centered around *Connecticut's Early Learning and Developmental Standards (CTELDS)*, combined with lessons from *Creative Curriculum*, *Handwriting Without Tears* and *Mutt-i-grees*.
